sizes: S/M (55-58 cm)

L/XL (58-61 cm)

HELMET TECHNOLOGY | DESIGN | STYLE

IN-MOLD – direct moulding of the polystyrene to the shell forms an inseparable bond between the two materials. Thanks to this technology the helmet has very good mechanical features and excellent look.

HARDSHELL – thanks to the combination of very hard polycarbonate top shell and inside polystyrene shell the helmet is able to absorb the shocks and guarantees very high level of protection and safety.

QFS (Quick Fit System) – fit system which provides the perfect adjustment according to the head perimeter and ensures safety and comfortable positioning on the head. Maximum comfort is achieved by using very exact fixing mechanism with anatomically shaped wheel.

EFS (Easy Fit System) – fit system which provides the perfect adjustment according to the head perimeter. Perfect cycling helmet set-up is the basic presumption not even for its good function but also for the comfortable bike ride.

LED Light – Integrated rear light helps to increase your visibility on the road during daylight, nightfall and night.

E-BIKE READY – Means that this product is suitable for using on e-bike which demand equipment with higher durability and safety features. Cycle helmets have to be able to absorb hits in high speed, also additional safety features, like rear red lights, are welcomed.

All Etape cycling helmets are certified according to the EN 1078+A1 standard.

GLOVES TECHNOLOGY | DESIGN | FASTENING SYSTEMS

Take Off System – very effective system made by two silicone straps that guarantee very comfortable gloves removal.

Anti Slip System – there are well-shaped anti slip fabrics on palm which enable firm grip of handlebar and prevent from slipping.

Max Air Comfort – lightweight and breathable fabrics for excellent wicking. Bi-elastic mesh panels for maximal comfort and ventilation.

Sweat Dry Comfort – smooth antibacterial terry cloth on the thumb to dry the sweat in the hot weather or exhausting ride.

Gel Pro Technology – special gel padding guarantee maximal and long-lasting shock resistance of your hand. The right position of gel padding is very important for comfort and safe ride.

Lady Cut – women models have a cut which respects specific female hand shape. Also, the fabrics and gel padding position are different.

SmartTouch – thanks to SmartTouch technology, you will be able to interact your touchscreen (whether it is your MP3, camera, video camera, navigation or mobile phone).

FABRIC TECHNOLOGY

SuperDryntex Fabric made from functional polyester yarn. SuperDryntex is softer, more comfortable and with more natural touch than cotton or regular synthetic fibres. Very quickly transports moisture to the outside and thanks wicking effect keeps your body constantly fresh. Thanks to antibacterial treatment is very easy to take care of SuperDryntex garment. Different fabric styles made of SuperDryntex fibres offer various features and thermo-insulation features.

MicroCool The new functional fabric MicroCool is made of fine polyester fibres. Thanks to 3-D structure offers much better moisture evaporation from body and keep your body dry and comfortable during intensive performance.

AirMesh High breathable fabric used for most exposed parts. Prevents unwanted overheat and offers great moisture management. Thanks to its elasticity provides perfect fit.

Fibra Pro™ Fabric designed for pro race or just for ride. Its unique structure provides perfect moisture management, the fabric is highly elastic and makes you feel comfortable even during whole day ride.

X series Materials X series are highly breathable and provides durability. Perfectly combine requirements of sports apparel and lifestyle clothing. Material XC and X5 provides outstanding stretch.

ThermoFit is highly stretchable fabric with excellent thermo-insulation features provides durability. The fabric has very good elasticity, smooth soft touch and antibacterial finish.

WindShell Windproof fabric made of polyamide fibers with water-repellent finish. Inside protective layer increase resistance to windy and rainy weather. The fabric is very light and therefore the garment is possible to pack into small pouch.

ClimaTec functional fabric provides excellent moisture management and high durability. These yarns are very comfortable and maintain an optimal microclimate for the feet. Great for every sport activity.

Reflectiv This highly reflective material increases your safety due to higher visibility in bad weather condition or at night.

Stretch Seamless technology of Etape Stretch seat pad and its all-directions elasticity ensure maximum comfort during the bike ride. The seat pad shape and structure respect the anatomical differences of a woman body (**Stretch Woman**) and of a man body (**Stretch Man**).

Soft Seamless technology of Etape Soft seat pad ensures maximum comfort during the bike ride. The seat pad shape and structure respect the anatomical differences of a man body (**Soft Man**) and of a children body (**Soft Kid**).
