FLY · THE FUTURE OF CYCLING

The way we will dress in future starts now. Materials are more protective, warmer and weigh less than ever before. Stop feeling dragged down by your winter kit. It's time to FLY!

We've developed FLY Fabric Technologies:
FFT with GORE-TEX INFINIUM™
WINDSTOPPER®, CLIMA-SL Insulation and
FLY SL Shell outer layer. A three-layer system
with super lightweight construction created
from the inside out.

OUTER LAYER
FLY SL

This micro ripstop is made from 100% recycled material blocks the wind and is treated to shed water and protect you from light short rain and road sprays.

MID LAYER
CLIMA SL

Made from 100% recycled material is the lightest and warmest insulation.

INNER LAYER
**GORE-TEX INFINIUM™
WINDSTOPPER®**

Its unparalleled performance keeps the wind from hitting your chest to keep you warm, but it also breathes and pushes the moisture from the inside out.

WHAT IT IS /PRODUCT FEATURES

A jacket so light it feels like it could just fly away. Super-light-weight construction using Castelli FLY Fabric Technologies: FFT to keep you warm and protected from the elements.

- Super-lightweight construction with amazing warmth and protection
- Castelli FLY Fabric Technologies: FFT
- GORE-TEX INFINIUM™ WINDSTOPPER® inner lining
- CLIMA SL Insulation for extra warmth
- FLY SL Shell for wind and rain protection
- 100% recycled post-consumer outer shell and lining
- Top and bottom-opening YKK® Vislon® zipper
- 3 back pockets with zippered security pocket for valuables
- Elastic and silicone at waist to keep jacket in place
- Reflective tabs for added safety

VIVID BLUE/BELGIAN BLUE

Imagine a jacket so light and warm you forget it's even on. The Fly Thermal Jacket is just that jacket. From the inside out we constructed this jacket to be impossibly light and warm using Castelli FLY Fabric Technologies: FFT. First, we started with GORE-TEX INFINIUM™ WINDSTOPPER® as the lining. Its unparalleled performance keeps the wind from hitting your chest to keep you warm, but it also breathes and pushes the moisture from the inside out. Next, we found the lightest, warmest insulation that is 100% recycled material. CLIMA SL insulation not only insulates but breathes as well. Finally, the FLY SL shell is again made from 100% recycled material that blocks the wind and is treated to shed water and protect you from light rain and road spray should you get caught out in a quick rain shower. Of course, like any good jacket, it's finished off with a YKK® Vislon® zipper, three back pockets that offer plenty of storage along with a fourth zippered pocket for valuables, an elastic with silicone gripper at the bottom to keep the jacket in place, and reflective tabs for added safety while out on the road. This is our next step in creating an environmentally friendly jacket that performs how you'd expect a Castelli jacket to perform.

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

For those days when you aren't sure if you need a jacket or just a jersey with warmers. The Fly Jack-sey hits that sweet spot when it's in between temperatures while offering protection just in case. Featuring brand-new lightweight construction with Castelli FLY Fabric Technologies: FFT. Treated with a water-repellent finish to help keep you dry. All this in a super-lightweight Jack-sey.

- Super-lightweight construction with amazing warmth and protection
- Low/no collar for temperature regulation
- Castelli FLY Fabric Technologies: FFT
- GORE-TEX INFINIUM™ WINDSTOPPER® inner lining
- CLIMA SL Insulation for extra warmth
- FLY SL Shell for wind and rain protection
- 100% recycled post-consumer outer shell and lining
- Top and bottom-opening YKK® Vislon® zipper
- 3 back pockets with zippered security pocket for valuables
- Elastic and silicone at waist to keep Jack-sey in place
- Reflective tabs for added safety

JERSEY? JACKET? JACK-SEY!

Is it a jersey? Is it a jacket? It's a Jack-sey! The Jack-sey is perfect for the in-between temperatures when you aren't sure if you need a jacket or if just a jersey, vest, and warmers will do. It offers all the protection you need, with GORE-TEX INFINIUM™ WINDSTOPPER® lining on the front. The FLY SL shell outer layer has a water-repellent finish to keep you dry, and the amazingly light CLIMA SL insulation is just enough to keep the chill away. The low/no collar sits close so that no unwanted air goes down inside, but not having a collar helps with temperature regulation. When you can't decide what to wear, you reach for the Jack-sey.

WHAT IT IS /PRODUCT FEATURES

The Fly Vest, giving you just enough warmth to take the chill off, is an amazingly lightweight garment. Featuring brand-new lightweight construction with Castelli FLY Fabric Technologies: FFT. The sides and back offer enough stretch to get the perfect fit for this unbelievably lightweight vest.

- Super-lightweight construction with just enough warmth and protection
- Low/no collar for temperature regulation
- Castelli FLY Fabric Technologies: FFT
- GORE-TEX INFINIUM™ WINDSTOPPER® inner lining
- CLIMA SL Insulation for extra warmth
- FLY SL Shell for wind and rain protection
- 100% recycled post-consumer outer shell and lining
- Top and bottom-opening YKK® Vislon® zipper
- 3 back pockets with zippered security pocket for valuables
- Elastic and silicone at waist to keep vest in place
- Reflectivity at waist

AN AMAZINGLY LIGHTWEIGHT GARMENT

It almost doesn't seem possible that a vest this lightweight can perform this well. When you first pick it up, you almost want to toss it in the air it's so light. Castelli FLY Fabric Technologies: FFT make this almost-impossible vest possible. The CLIMA SL insulation layer and FLY SL shell are made with 100% recycled fibers that are amazingly soft and lightweight. The FLY SL shell is also treated with a water-repellent finish to keep you dry. The GORE-TEX INFINIUM™ WINDSTOPPER® inner lining provides outstanding wind protection and is extremely breathable. The back of the vest has a stretchy jersey-weight fabric to reduce the weight and allow for a close, comfortable fit. The low collar sits against the chest to keep any wind from coming in, and the YKK® Vislon® zipper slides easily to open up the vest for extra ventilation. Three back pockets allow for ample storage, and reflective details increase visibility. It's amazing this much protection and practicality can be found in such a lightweight vest.

FLY LS JERSEY
4523511

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	304 g (M)	12-18°C / 54-64°F
	LIGHT RAIN 	 WINDPROOF 

WHAT IT IS /PRODUCT FEATURES

The Fly LS Jersey is a lightweight thermal long-sleeve jersey for those days when it's just a bit chilly and you're looking to go fast. The soft brushed-back Fly T-SL fabric offers the right amount of warmth while being stretchy and lightweight. We've tailored the Fly LS Jersey for a close-to-body fit.

- Super-lightweight construction with just enough warmth
- Low/no collar for temperature regulation
- Castelli FLY Fabric Technologies: FFT
- Fly T-SL fabric
- YKK® Vislon® zipper
- 3 back pockets with zippered security pocket for valuables
- Elastic and silicone at waist to keep jersey in place
- Reflective tab on back pockets

THE JERSEY FOR THOSE DAY
WHEN YOU WANT TO FLY

Even on chilly days you want to have that feeling of speed you get when wearing an aero jersey. The Fly LS Jersey gives you the lightweight freedom of movement and feeling of speed that a summer aero jersey provides, along with the warmth you need as the temperatures change from summer to fall to winter. We've taken cues from our aero jersey — low collar, close-to-body fit, comfort, and freedom of movement — but added warmth by using our Fly T-SL fabric and long sleeves. The three pockets on the back offer ample storage, with a fourth zippered pocket to secure your valuables. The elastic with silicone grip at the waist keeps the jersey from moving around. And with days getting shorter, reflective tabs will help to keep you visible.

WHAT IT IS /PRODUCT FEATURES

The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can ride it below freezing. If you have just one jacket in your cycling wardrobe, this should be it.

- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- Zippered ventilation opening on side of chest
- 3 rear pockets
- Reflective panel at bottom of pockets

MEN'S JACKETS

ALPHA DOPPIO ROS JACKET

The high performance cold weather jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit.

-5°-10°C / 23°-50°F

ALPHA FLIGHT ROS JACKET

Castelli's best jacket for mild conditions, with front wind protection, light insulation, maximum breathability, and water repellency to keep you dry in mist, light rain or spray from wet roads.

6 °-16°C / 43°-61°F

ALPHA ULTIMATE INSULATED JACKET

Stretchier and lighter without sacrificing warmth and protection compared to the Alpha RoS 2 Jacket, this really is the ultimate full winter jacket.

-5°-12°C / 23°-54°F

BETA RoS JACKET

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you'll hardly notice it.

8°-18°C / 46°-64°F

RADDOPPIA 3 JACKET

GORE-TEX INFINIUM™ WINDSTOPPER® outer layer, thick fleece inner layer make this jacket right for cold weather while the large reflective bands on chest and pocket keep you visible.

GO JACKET

The thinner 3-layer GORE-TEX INFINIUM™ WINDSTOPPER® shell gives maximum flexibility to layer for any condition with go-anywhere styling.

MORTIROLO 6S JACKET

The perfect jacket for mild winters or for the rider who tends to overheat.

ENTRATA JACKET

This mid-weight jacket is perfect for the changing weather as we enter fall and spring. Enough warmth and protection without overdoing it. A neutral fit and extra reflectivity for added safety.

8°-18°C / 46°-61°F

Cyclingnews.com says this jacket “sets an all-new benchmark in what a winter cycling jacket can achieve,” and it’s exactly what we think the perfect winter jacket should be. With this next generation, the Alpha Doppio RoS Jacket, we think we’ve made our best jacket better. Even the best of the currently available fabrics provide a good level of breathability but can’t keep up with the sweat generated during high-intensity riding. So we invented a double-layer construction that allows you to open an outer wind-protection layer while keeping the insulation layer closed and thereby allowing airflow inside the jacket to evacuate moisture while avoiding direct contact with the skin. On a long climb we’ll completely open the outer layer to allow moisture to escape, and when we start the descent we close the outer layer and are completely dry inside. It works so well that sometimes it feels like magic. In this next generation, we used a softer, warmer Polartec® Alpha Direct insulating layer. Next, we made small changes to the openings: neck, waist, and, most of all, wrists. The neck comes up high and is shaped to move with you, whether you’re standing or in an aero position being a January hero and attacking your mates. For the waist, we’ve created a stretch layer with a silicone bead that lies flat and completely seals out wind without bunching or riding up. We’ve made some updates to the double-layer wrist opening, with an inner layer that goes under your glove that seals tight to your wrist, and an outer layer that goes over your glove so that any rain will roll down the outside of the glove and not end up inside. This jacket will also hold up well in wet conditions, so we used GORE-TEX INFINIUM™ WINDSTOPPER® fabric along with waterproof seam taping on critical seams around the shoulders. Other seams are hidden out of direct water flow, and the water-repellent treatment on the fabric is sufficient to prevent most moisture from entering. We call it “essentially waterproof,” using our own subjective judgment to find a balance between water protection, breathability, and comfort. It doesn’t mean that no drop will ever come in, but we do longish rides in real rain and stay completely dry. All these features make it a favorite of our staff and most of our ambassadors, and the most versatile performance jacket for cold-weather training we’ve ever created.

WHAT IT IS /PRODUCT FEATURES

Top-rated winter jacket, bringing warmth, breathability, and a high level of rain protection along with a soft, comfortable fit. This jacket leads the way in demonstrating how a winter jacket should perform.

- Rain or Shine engineering makes this our best jacket ever for dry conditions while providing significant rain protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 150 fabric for wind protection with high breathability and effective rain protection
- Double-layer Alpha construction with Polartec® Alpha Direct insulating layer separate from wind/water barrier to let you regulate temperature and ventilation
- Reduced seaming with seam sealing on shoulders reduces chances for water to enter through stitching
- Off-set Water-resistant YKK® Vislon® zipper slides easily for better regulation of airflow
- Raw-edge waist with silicone gripper lies flat and seals out wind
- Double-layer cuff integrates with gloves to prevent cold wind or water from entering at wrist
- Stretch fabrics with advanced patterning make for an excellent close-to-body fit that still accommodates a wide range of body types
- Back ventilation
- 3 rear pockets with reflective laser-cut drain holes
- Zippered secure front pocket for valuables

WHAT IT IS /PRODUCT FEATURES

Castelli’s best jacket for mild conditions. This lightweight, su-per-breathable, and extremely fast jacket is great for high-inten-sity rides or staying at the right temperature in cool conditions. Alpha construction with membraneless outer layer and Polartec® Alpha inner insulation.

- Nano Flex Light woven fabric on chest, sleeves, and upper back partially blocks wind, but lack of a membrane guarantees maximum breathability
- Alpha double-layer construction separates wind-block layer from insulation layer, allowing better ventilation and temperature management
- Water-repellent finish
- Polartec® Alpha active insulation on chest, sleeves, and back for extra warmth
- Nano Flex Extra Dry on back for more ventilation, allowing heat and sweat to escape while shedding rain thanks to a nanotechnology water-repellent finish
- Off-set Double YKK® Vison® front zippers
- Zipper pocket on side to secure valuables
- 3 rear pockets with laser-cut drain holes
- Raw-edge waist lies flat and moves with you

This is the jacket for going fast on cold days or being perfectly dressed on cool days. Our Alpha double-layer construction is the core of what makes this jacket work so that you can be in full flight mode when the season starts. The stretch woven fabric lets a small amount of air in to keep you from getting too sweaty during those efforts on colder days, because if you get wet you get cold. The Polartec® Alpha second layer insulates while still providing plenty of breathability, and it’s so light the jacket has hardly any bulk to it.

The back is made from our Nano Flex Extra Dry fabric, which provides a good level of insulation yet has no membrane so allows for ample amounts of sweat to escape. The fit is close to body so there is no fabric flapping around, while the little details make the difference: easy-sliding YKK® zippers, reflective drain holes on the pockets, a lie-flat silicone gripper band around the waist.

The close fit makes this our most aerodynamic jacket as well. Not that aerodynamics are terribly important in the winter, but we’re a firm believer that Fast Is Fun!

BETA RoS JACKET

4520505

SIZES	WEIGHT		
XS-3XL	212 g (M)	 POLARTEC® NeoShell®	 RAIN OR SHINE
TEMPERATURE RANGE			
8°-18°C / 46°-64°F			
	LIGHT RAIN		FRONT/SLEEVES

WHAT IT IS /PRODUCT FEATURES

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you’ll hardly notice it. Race fit for performance on fast autumn and spring rides on any terrain.

- Polartec® NeoShell® 4-way-stretch fabric on front and upper sleeves is windproof, waterproof and highly breathable
- Nano Flex Light woven fabric on back is highly breathable while blocking wind and splashes from light rain or wet roads
- Close-to-body cut remains very comfortable thanks to 4-way stretch of all fabrics
- YKK® Vislon® zipper is easy sliding for quick ventilation control
- 3 rear pockets
- Large reflective panel at lower back

As summer turns to autumn we still have a few months of amazing riding, but when we have to start dressing warmer we miss the freedom of wearing just a jersey. That’s why we made this jacket. We used the lightest, stretchiest fabrics we have to make a jacket that cuts out most of the wind, remains highly breathable, provides remarkably high levels of water protection, and just basically disappears so you don’t really notice it. This is a performance piece, so we’ve kept it focused on the task at hand. There’s nothing superfluous on it, unless you consider the big reflective panel on the back to be unnecessary. We don’t. We’ve given it a close-to-body fit so there’s no fabric flapping in the wind, which also helps keep the jacket warmer. The pockets are generous and easily reachable, the zip slides easily, and the logoing is discreet.

COMFORT AND PROTECTION

WHAT IT IS /PRODUCT FEATURES

The perfect jacket for mild winters or for the rider who tends to overheat, this piece features our warmly insulated GORE-TEX INFINIUM™ WINDSTOPPER® fabric on the front and sleeves, while the back forgoes the membrane to let moisture escape. It's a non-race-fit jacket to fit most body shapes.

- GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast fabric with fleece liner on upper chest and sleeve front
- GORE-TEX INFINIUM™ WINDSTOPPER® Mid with lightly brushed inside on lower front
- Reflective panel on chest
- Warmer back allows heat and moisture to escape
- Reflective heat transfers on pockets for maximum visibility
- 3 rear pockets
- YKK® Vislon® zipper

GORE-TEX INFINIUM

COMFORT AND PROTECTION

WHAT IT IS /PRODUCT FEATURES

This mid-weight jacket is perfect for the changing weather as we enter fall and spring. Enough warmth and protection without overdoing it. A neutral fit and extra reflectivity for added safety.

- GORE-TEX INFINIUM™ WINDSTOPPER® X-MID front and sleeves for wind protection with exceptional breathability
- Warmer fleece fabric on back for additional breathability
- Asymetric YKK® Vislon® zipper
- 3 rear pockets
- Reflective detail on pockets for extra visibility

The perfect jacket for approaching winter. Great for those fall rides when there is a chill in the air. If you live in a warmer climate, this could be the jacket to carry you through the heart of winter and into spring. For the front of this jacket we've used the same fabric as on our pro-level Gabba jacket, but in this case we've paired it with a fleece back for extra breathability and we've given it a more generous cut for easier wearing. The details are there, from the three perfectly placed and sized rear pockets to the silicone gripper elastic and the YKK® Vislon® zipper for easy opening and closing. This jacket will help you enter the next season ready, with plenty of miles in the legs.

SLICKER PRO JACKET
4522575

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	182 g (M)	4°-18°C / 39°-64°F
 WATERPROOF		 WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The waterproof jacket for when you know you have to ride in the rain. Our pros love this jacket because it keeps them dry, breathes, fits great, and has pockets. All this and it packs away into a jersey pocket.

- Castelli Microshell 2-layer ultralight 50 g/m2 waterproof breathable fabric with PFC-free external microporous polyurethane membrane
- Stretch waterproof side panel, shoulder, and sleeve give close-to-body fit
- Stretch wrist closure seals wrist and can cover gloves to keep water out
- YKK® Vislon® waterproof zipper
- 2 external rear pockets
- Silicone elastic waistband
- Fully taped seams for total waterproof construction
- Reflective trim
- Packs up small to easily stash away in jersey pocket

If your passion, or your job, is riding bikes, then you'll eventually need to spend some hours in bad weather. The Slicker Pro is the jacket you need. The fabric sheds water at an amazing rate but also breathes to keep you from getting wet from the inside. The stretch inserts allow us to create a close, more aerodynamic fit so the jacket doesn't flap in the breeze like those old-school rain jackets. Since this jacket might be on for a while, we've added pockets to the back for quick access to what you might need. And since this is a rain jacket, we've added drain holes to the pockets so they don't fill up with water. Even with all this, the jacket will still pack down to fit in a pocket should the rain stop and the sun come out. Its packability also means you can easily take it with you if you know rain is likely before you finish your ride.

SIZES	WEIGHT		
S-3XL	166 g (M)		
TEMPERATURE RANGE			
4°-18°C / 39°-64°F			
	WATERPROOF		WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The waterproof, packable jacket to take on all your rides. It's highly breathable and extremely light, with a great fit. Perfect to have if there is a chance of rain or if you just want extra protection on a long descent.

- The lightest and most packable fully waterproof Castelli GORE-TEX® jacket
- GORE-TEX® waterproof fabric is fully waterproof yet offers unmatched breathability
- The entire lower back is in GORE-TEX® Topo stretch fabric to allow the jacket to expand in diameter if you have a few extra winter kilos or full pockets
- Reflective tape on back of both sleeves for high visibility in low-light conditions
- YKK® Vislon® waterproof zipper slides easily for ventilation adjustments
- Internal wrist gaiter seals wrist and integrates with glove to keep water out

Some days you look out the window and the clouds in the sky look ominous, but you just want to ride. The Tempesta Lite is the jacket to throw in your pocket when you head out the door. It's extremely light so you'll hardly notice it's in your pocket, and it packs down so small (about half a pocket) that you won't sacrifice any storage space if you want to bring it with you "just in case." The fabric is waterproof so you'll stay dry if those clouds do decide to open up, but it's breathable too, to keep you from getting wet from the inside. It's also the perfect piece to put on for those long descents when you want to keep the wind off your chest and arms.

WHAT IT IS /PRODUCT FEATURES

Amazingly lightweight GORE-TEX® shell jacket for all-day riding in the rain. Cut to fit over insulation layers without adding extra bulk. This is a serious piece of equipment for the wettest, nastiest days on the bike, when anyone else would stay inside.

- 3-layer mid-weight GORE-TEX® fabric for total rain protection
- Long tail for added splash protection
- Covered ventilation on upper back for temperature regulation
- Offset covered YKK® AquaGuard® zipper
- Reflective wrist closures for added safety
- 3 rear pockets with reflective laser-cut drain holes

This is the jacket made for those days when you just have to go out in the nastiest conditions and need the most effective barrier between you and the elements. The lighter-weight GORE-TEX® fabric offers total rain protection. We've given this jacket a cut that is slightly roomier so that it can fit over insulation layers without flapping in the wind but still feels great in the riding position. The back has a longer tail for added protection from spray coming off the wheel and a covered vent across the shoulders for temperature regulation. An offset covered YKK® AquaGuard® zipper reduces bulk and the chance of discomfort when wearing multiple layers at the front of the collar. Three rear pockets for storage if you do need to wear this out for a long ride and reflectivity at the wrist and back for extra safety finish off this amazingly lightweight and protective shell jacket.

WATERPROOF

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

This elegant jacket provides full waterproof protection with a stretch fit for comfort and aerodynamic performance. The jacket is protective enough to wear all day yet looks good on a gravel ride or when you’re meeting your mates at the café.

- Tempesta Stretch fabric with windproof PU membrane provides 10,000 mm waterproofness with 20,600 g/m²/24h breathability
- Taped shoulder seams for waterproofing
- Stretchy for extremely comfortable fit that moves with you
- Packable enough to fit in jersey pocket
- Covered easy-sliding YKK® Vislon® zipper
- Extra-long tail for protection from wheel spray
- Vent on back
- Reflective stripe at lower back

This jacket does three things really well: the Tempesta Stretch fabric provides full waterproof protection, the four-way stretch makes it fit any body type, and it looks great on and off the bike. Compared with our more expensive GORE-TEX® Idro jackets, you give up the best-in-class breathability and extreme packability, but you gain stretch fit and increased durability. We developed the fabric to our own specifications to make a jacket that is fully waterproof, comfortably stretchy, packable enough to fit in a jersey pocket, and with an appearance and hand that make it look great. This is meant to be a rain shell worn over a jersey, so we’ve foregone the external pockets and kept the construction simple to minimize seams. We’ve given it a vent on the back to prevent overheating, a covered zip to keep spray out and reflectivity for safety.

EMERGENCY 2 RAIN JACKET

4521500

SIZES	WEIGHT	TEMPERATURE RANGE
S-3XL	149 g (M)	6°-18°C / 43°-64°F

WATERPROOF

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you’d expect from Castelli, we also gave it an amazing on-bike fit, yet it’s still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn’t want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability. We kept the styling toned down and added a bright colorway in Fiery Red so that you can easily use this as a commute jacket and still look great when you get to the office. If you’re going to wear it over office attire you may want to go up one size.

CASTELLI CYCLING

FLIGHT JERSEY AIR
4522518

SIZES	WEIGHT	NANO FLEX
XS-3XL	190 g (M)	
TEMPERATURE RANGE		
10°-16°C / 50°-61°F		
<div><div></div><div>WET ROADS</div><div></div><div></div><div></div></div>		

WHAT IT IS /PRODUCT FEATURES

Next-level fabric technology makes this jersey faster, water repellent, and warmer even though it's lighter. Like an Aero Race Jersey for cool conditions.

- Nano Flex Light woven fabric all around partially blocks wind, but lack of a membrane guarantees maximum breathability
- 3D Mesh fabric from Castelli's base layer range used as front lining for extra warmth and moisture management
- YKK® Vislon® zipper
- Raw-cut wrists integrate easily with gloves
- Close-to-body fit
- 3 rear pockets
- Reflective wordmark on back pocket

We've used the Nano Flex Light stretch woven fabric on the back of Perfetto vests and Beta jackets for a few years now. A tightly woven fabric, it keeps a lot of the wind out while being relatively thin and compact. And the lack of a membrane means that much more moisture can escape.

Now we bring this fabric into a jersey that is lightweight yet surprisingly warm thanks to the way it keeps more wind out than a traditional jersey. We line the front of the jersey with a fabric that comes straight from our technical base layers for a little added warmth and to help move moisture away from your body. This jersey actually covers a wider range of temperatures than our traditional knit jerseys. Use it with a light sleeveless base layer for mild days, with a light long-sleeve base layer for moderate days, or with a Flanders Warm or Miracolo base layer and vest to stay comfortable in surprisingly cool temperatures.

The stretch woven fabric is aerodynamic, and we give this jersey a close-to-body fit. Think of it as your Aero Race Jersey for spring and fall days.

LIGHT RAIN

WHAT IT IS /PRODUCT FEATURES

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perfetto RoS Vest.

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer.

Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

PRO THERMAL MID LS JERSEY

4521516

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	228 g (M)	14°-19°C / 57°-66°F

WHAT IT IS /PRODUCT FEATURES

A favorite piece among our sponsored pros, this jersey is a bit lighter and a bit stretchier and features a closer cut for an aero fit.

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop-pocket construction for better fit around waist and better pocket position
- Easy-sliding YKK® Vislon® zipper
- Embossed line across chest
- Reflective vertical stripe on center pocket

For those first cool fall days or the last remnants of spring, the Pro Thermal Mid LS Jersey gives you some extra warmth.

The secret is in the fabric. Compared to our standard Warmer fabric, we've lightened it up a touch and added some spandex/elastane for more stretch. It has a close-to-body aero fit without feeling too tight. It's a performance piece for every ride, with our drop-pocket construction and YKK® Vislon® zipper for easy one-handed adjustment.

Why would you want a less warm thermal jersey? One situation is in conditions that are too cool for a short-sleeve jersey and it just feels better to cover up and add this bit of warmth. Another situation is a higher-intensity ride where it's easy to overheat.

In keeping with the pro technical function of this jersey, we've kept the design details very clean, with an embossed stripe across the chest and a reflective vertical stripe on the pocket for low-light visibility.

WHAT IT IS /PRODUCT FEATURES

A favorite piece among our sponsored pros, this jersey is a bit lighter and a bit stretchier and features a closer cut for an aero fit.

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop-pocket construction for better fit around waist and better pocket position
- Easy-sliding YKK® Vislon® zipper
- Embossed line across chest
- Reflective vertical stripe on center pocket

Ideal for cool days when you still want a short-sleeve jersey but need something a little warmer to take the chill off. The fabric is lightly brushed on the inside, and the bit of elastane gives a perfect stretch fit. We'll also use this jersey with arm warmers and a vest on cooler days — either an Aria Vest that will go in a pocket once the air warms up, or a Perfetto Vest for a day that will stay cool. This jersey gives that extra level of comfort underneath. As a piece designed for the pros, it stays wonderfully minimalist: three rear pockets, easy-sliding YKK® zipper, sleeves cut to just above the elbows. But we've added a reflective stripe to help keep you visible.

PURO 3 JERSEY FZ

4518511

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	288 g (M)	14°-20°C / 57°-68°F

WHAT IT IS /PRODUCT FEATURES

Our most popular jersey, thanks to the warmth and excellent moisture management of our Warmer brushed-fleece fabric; the clean, purposeful design; and the large reflectivity panels on the chest and below the pockets on the back.

- Warmer fabric is a thickly brushed polyester fleece giving comfortable warmth with excellent moisture management
- Reflective panels on front and back
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper

The third generation of the Puro Jersey, our most popular winter jersey, is better than ever. The thickly brushed fabric is warm inside yet with excellent breathability with enough stretch for non-restrictive fit. The reflective panels front and back provide excellent day and night visibility. Otherwise it's a no-nonsense technical piece aimed at comfort and warmth while making you look good.

ENTRATA THERMAL JERSEY

4523512

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	240 g (M)	12-18°C / 54-64°F

WHAT IT IS /PRODUCT FEATURES

The thermal jersey for the cyclist who prefers a jersey and vest in cool conditions instead of a light jacket. The brushed fleece fabric keeps you warm but also has enough stretch to ensure a perfect and comfortable fit.

- Made from 100% polyester fleece for extra warmth and wicking
- Easy-sliding YKK® Vislon® zipper
- 3 rear pockets
- Silicone gripper elastic at waist
- Large reflective panel on pocket

It's plenty warm on its own, but when paired with a vest this jersey is great for most of your fall, mild winter, or early season riding. The brushed fleece back fabric is warm and stretchy to provide a great fit. It's also breathable to help keep you from overheating. We've added three back pockets, a silicone gripper elastic, and an easy-sliding YKK® Vislon® zipper. The subtle design pairs with a vest for a great look and extra function.

WHAT IT IS /PRODUCT FEATURES

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X² Air Seamless seat pad for long-distance comfort.

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth, and on back to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X² Air Seamless pad for long hours in the saddle

WHAT IT IS /PRODUCT FEATURES

The performance tight with the right weight for most winter riding, with a focus on comfort, stretch, and protection.

- Nano Flex 3G fabric from waist to knee for soft warmth with maximum stretch and water repellency
- Nano Flex stretch woven fabric with brushed fleece inside at lower leg for splash protection on wet roads
- Stretchy bottom of leg with raw-cut edge means ankle zipper is not necessary
- Minimalist bib straps, as found on the Free Aero RC Bibshort, don't add extra bulk
- Rear pocket at bottom of bib straps
- Reflective tabs on back of legs
- Progetto X² Air Seamless seat pad for long hours in the saddle

The Free Aero RC Bibtight is made to be your first choice for most of your winter riding. Everything about it is focused on keeping you comfortable and at the right temperature. Every detail, every fabric, every seam will make your winter riding better.

This is the tight for those cool to cold days. Not for bitter cold, when you'll want to use a Sorpasso or Sorpasso Wind. Not for mild days, when you'll use leg warmers or a Semifreddo Bibtight. This is for maximum comfort on those days when you need warmth but you're not fighting for survival — those days when you're doing long rides getting ready for the season.

Most of the tight is constructed from our Nano Flex 3G fabric. Our third generation of Nano Flex is luxuriously soft, warm, and stretchy. But it also offers excellent breathability, keeps a lot of the wind out, and has our updated Nano Flex water-repellent finish. The lower legs are in our lighter-weight Nano Flex stretch woven fabric with a lightly brushed inside and with leading water repellency. For the rest of the tight we've kept it simple: minimalist Free bib straps that you won't notice, and raw-cut leg endings that are stretchy enough to not need ankle zippers, improving comfort when you pull shoecovers over the top.

This is supposed to be your long-ride comfort tight, so the Progetto X² Air Seamless pad will be protecting your backside.

TEMPERATURE RANGE

6°-15°C / 43°-59°F

WET ROADS

WHAT IT IS /PRODUCT FEATURES

The performance comfort tight for cool conditions when you want to cover up but not be weighed down.

- Thermoflex fabric from waist to knee for extra stretch and warmth
- Nano Flex stretch woven fabric with brushed fleece inside at lower leg for splash protection on wet roads
- Progetto X² Air Seamless pad for long-distance comfort
- Minimalist mesh bib straps
- Zipperless ankle to reduce bulk inside shoecovers
- Reflective tabs on back of legs

Semifreddo — it's an Italian desert that's chilled but not frozen. Exactly like the conditions we designed this tight for. This tight was made for cool days when you're not quite sure if you'll be warm enough with shorts and leg warmers or if you'll overheat with a full thermal tight. In those conditions the Semifreddo is the tight you need.

The thighs and hips are kept warm with our Thermoflex fabric. Soft, fleecy, and especially stretchy, it's more comfortable than shorts and warmers. The lower leg uses our thinner Nano Flex stretch woven fabric so you don't overheat. Water protection is limited to the lower legs, so wet roads aren't a problem, but this isn't your tight when rain is threatening.

The Progetto X² Air Seamless pad finishes out the comfort focus on our best tight for moderate conditions.

NANO FLEX PRO RACE BIBSHORT

4520521

SIZES	WEIGHT	<div><div>PROGETTO X²</div><div>NANO FLEX</div></div>
XS-3XL	205 g (M)	

TEMPERATURE RANGE

12°-20°C / 54°-68°F

WET ROADS

WHAT IT IS /PRODUCT FEATURES

The original Omloop knee-length thermal short now in full Nano Flex 3G fabric for all conditions from dry to cold to wet.

- Nano Flex 3G fabric is water repellent, stretchy and warm thanks to the luxuriously soft brushed inside
- Reduced seams for comfort and to prevent water from coming in during wet rides
- Knee-length cut for extra warmth that doesn't require a gripper elastic
- Mesh bibs don't add warmth to the upper body so you can dress for the conditions
- Progetto X² Air Seamless seat pad for long hours in the saddle

You could call this a "convergence" product. A few years back we pioneered the first Omloop thermal short, inspired by pro riders cutting off their knee warmers to just the bend of the knee at the Omloop Het Nieuwsblad on a brisk sunny morning. We set about making a bibshort cut right to the bend of the knee and realized that we could make it without a gripper elastic and that the extra 10 centimeters of fabric add a lot of warmth. Those first Omloop shorts were made for cool, dry conditions, like the race that inspired them, using our Thermoflex fabric.

Fast-forward to 2020 and the new third generation of our Nano Flex fabric is as soft, stretchy, breathable and warm as our Thermoflex fabric, so now we can make this short ideal for cool and dry conditions, but it's also excellent on wet days.

It's still a pro tool: this short is identical to the model supplied to Team Quick Step-Alpha Vinyl.

The do-everything tight: great in dry conditions, water repellent for light rain and wet roads, reduced seams for comfort, reflective band for visibility. And the tone-on-tone embossed logos give it that tech stealth look.

- The bibtight that’s great in every possible condition
- New Nano Flex 3G fabric is exceptionally warm and soft yet with even better rain protection
- Reduced seaming for improved comfort and fit
- Mesh bib straps don’t hold moisture
- KISS Air² seat pad for long-distance comfort
- Reflective leg ending with ankle zip
- Embossed logos for durability

IT JUST HAPPENS
TO BE GOOD
IN THE RAIN TOO

Our Nano Flex 3G fabric is the result of a decade of development. It’s our best all-around fabric for winter tights: warm, stretchy, luxuriously soft, highly breathable and on top of that it features our proprietary third generation of nanotechnology water-repellent finish. While other companies are using simple chemical water-repellent finishes, we create a nanotechnology mechanical repellency to enhance a chemical DWR finish. You stay drier and more comfortable.

Even though this tight features our latest water-repellency technology, don’t think of it as just a niche rain tight. The fabric makes for a great dry-weather tight, and the reduced-seam anatomical cut makes it extremely comfortable. We use the pro-level KISS Air² seat pad along with a mesh bib and zippered ankles. This is the tight that’s good at everything.

WET ROADS

Minimalist meets performance in this tight with extreme-comfort Thermoflex fabric along with our fleeced Nano Flex stretch-woven lower leg for splash protection. Especially good when you don't want a deep-winter tight.

- Thermoflex fabric from knee to waist for warmth and comfort
- Nano Flex stretch-woven fabric with brushed fleece inside at lower leg for splash protection from wet roads
- KISS Air² seat pad
- Mesh bib straps
- Zipperless ankle to reduce bulk inside shoecovers
- Reflective inserts on thighs for visibility on back and sides

The ideal tight for most of your winter riding, the Velocissimo is focused on comfort for riding in mild to cool conditions. We've used our Thermoflex fabric for most of the tight. It's not our warmest fabric, nor does it repel water like Nano Flex, but it is the softest, stretchiest winter tight fabric. The comfort is immediate and lasting. For the lower leg from just below the knee, we switch to our Nano Flex fleeced stretch-woven fabric that's both warm and highly water repellent for protection against spray coming off wet roads. It's also highly stretchy, and we leave a raw edge so we can construct the ankles without zippers while making sure the tight remains easy to put on and take off. The KISS Air² seat pad and mesh bibs keep your bum and upper body happy, while large reflective detailing keeps you visible.

FRONT ONLY

WHAT IT IS /PRODUCT FEATURES

Our warmest tight, providing full-length front wind protection. This is the right choice if you love extreme riding or just want to dress very warmly in cool/cold conditions.

- Full GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast front for total wind protection
- Nano Flex G3 on seat and lower back leg for splash protection from wet roads
- Thermoflex back of thigh for extra warmth and stretch
- Mesh bibs don't hold moisture
- KISS Air² seat pad gives great cushioning without excessive bulk
- High-visibility reflective stripes above knee in front and above calf on back
- Ankle zips for easy on/off

This is our warmest tight, for tough guys who don't let a little cold keep them indoors.

Our warmest GORE-TEX INFINIUM™ WINDSTOPPER® fabric covers the entire front of the tight to keep the cold wind out. We use water-repellent Nano Flex 3G on the bum and the back of the lower legs for splash protection from wet roads, while Thermoflex on the back of the thighs gives extra stretch for the renowned Castelli fit. This is now the most comfortable wind tight we've ever made.

We've kept the bib straps to a minimum so that you can layer your upper body exactly as you wish, without an unwanted thermal layer covering your stomach.

With more of us riding at night, we've placed large reflective inserts on both the front and back of the legs, where the up-and-down pedaling motion grabs the attention of approaching motorists.

FRONT ONLY

WHAT IT IS /PRODUCT FEATURES

For when you just want maximum warmth. The Entrata is fully covered on the front by our fleece-backed AirFlex windproof fabric, with Nano Flex 3G on the back, keeping cold wind and road spray at bay.

- AirFlex Thermo fabric on front panels for maximum stretch and total windproofness
- Back in Nano Flex 3G for splash resistance with maximum warmth
- KISS Air² seat pad for all-day comfort
- Flat-lock seams
- Reflective Castelli logos on upper leg
- Camlock® ankle zips with reflective zip cover

Our entry-level wind bibtight doesn't compromise cold-weather performance. This is the right tight for you if you're on a budget or if your winter riding includes only a few days of truly biting cold. Or if you want a wind tight with extra stretch. The reason this is our entry-level tight is that we swap out the GORE-TEX INFINIUM™ WINDSTOPPER® wind protection front for an Italian-made wind protection fabric with a polyester wind membrane. Some brands use this fabric on their top-of-the-line tights. Compared to the GORE-TEX fabric you give up some breathability, but on the other side you gain extra stretch. Seat pad duties are handled by our Kiss Air2 pad, which is not a huge step down from the X² — in fact, it's the choice of some of our pro riders.

The rest of the tight is pure premium performance: the back of the legs is in our Nano Flex 3G water-repellent fabric from our top-of-the-line tights, and you also have flat-lock seams, YKK® Camlock® zippers at the ankles, and reflective strips on the lower legs.

POMPEIAN RED

Riding off-road and the improvements in breathability in hard shell fabrics have made us reconsider hard shell jackets. The Trail GT Jacket is made to work for rainy rides on any surface, or cold rides when you really want to keep the elements out and you're not as concerned about going fast.

We've used GORE-TEX® PACLITE® PLUS for the extra breathability, and that also allows the jacket to compress down to a low volume in your bags. It has two front pockets that can open for ventilation, and an adjustable drawstring at the waist for a perfect fit.

The hood is cut to fit over your helmet for riding in the rain and packs away into the collar when you don't need it. The wrists have an adjustable closure, so you can either close them tight to keep out the rain or open them up for extra ventilation.

While this jacket is first and foremost a technical on-bike piece, it's also designed to look good when you're off the bike, for your next adventure or bikepacking ride.

WHAT IT IS /PRODUCT FEATURES

GORE-TEX INFINIUM™ WINDSTOPPER® jacket ready for any adventure on the bike. This jacket will protect you from the rain while still being breathable. It's got a classic jacket cut with two zippered front pockets and a hood, giving it a casual look and making it the perfect jacket to go from the bike to the office to the café.

- GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability
- Hood designed to work with or without helmet
- 2 front zippered pockets
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding
- Back zippered security pocket
- Reflective stripe on hood and back

No matter the surface you choose to ride on, the protection you need on the bike from the elements remains the same. The Trail Hoodie Jacket is full GORE-TEX INFINIUM™ WINDSTOPPER® to protect you from the wind, shed the rain, and breathe to make sure you stay comfortable and don't overheat. The hood gives the jacket a more casual look but can fit over your helmet to keep the rain off. In keeping with the more casual look and feel of this jacket, we provide two front pockets that are zippered to keep your items secure and safe while riding. There is also a third zippered back pocket for extra storage. The cut on this jacket has been fine-tuned to fit perfectly on the bike but still feel great off the bike, so you can finish your ride or commute to the office and then go straight to the bar or café to meet your friends afterward.

Good for everything from road riding to bikepacking, this vest packs a surprising amount of warmth into a surprisingly small amount of space. The microfiber shell fabric keeps the wind out, while the Polartec® Alpha® Direct insulating layer provides exceptional warmth with minimal weight. The stretch side panels improve fit and ventilation and are treated to be water repellent, as is the rest of the vest. There's a zippered chest pocket for valuables, and two large back pockets for easy access. The wide range of conditions that this vest covers means that you'll use it on the road in the spring and autumn, wear it on your gravel rides in the mountains during the summer, and stash it in your handlebar bag on your next bikepacking adventure.

UNLIMITED

UNLIMITED TRAIL JERSEY

4522505

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	263 g (M)	12°-17°C / 54°-63°F

WHAT IT IS /PRODUCT FEATURES

The warmest all-road jersey with extreme performance, disguised as an adventure jersey.

- High-loft brushed polyester fleece fabric keeps you warm and dry, while the 5% elastane content helps it stretch for perfect fit
- Tight knit keeps some wind away from your skin for extra warmth
- 3 cargo-style rear pockets and a zippered chest pocket
- YKK® Vislon® zipper for easy opening/closing
- Neutral fit

Gravel and off-road riding often mean somewhat slower speeds and more variability, so we can ride in cooler conditions before putting on a full jacket. This jersey was made to provide a high level of warmth, especially at lower wind speeds, to give that perfect balance of warmth without overheating. Style-wise, it's influenced more by outdoor than pro racing, but Castelli's DNA is still there for the on-bike performance, sacrificing only aerodynamics. All-road features include the higher-volume pockets as well as the zippered chest pocket so you don't lose valuables.

This jersey is excellent as a layering piece under an Unlimited Puffy Vest or an Aria Vest.

WHAT IT IS /PRODUCT FEATURES

For cool-weather gravel rides, the Unlimited Thermal Jersey keeps your core warm while providing enough ventilation to keep you from overheating. Stretch side panels keep it fitting perfectly. Pair it with a Perfetto Vest to extend the comfort range of this jersey.

- Warmer fabric on body and sleeves
- Warmer X-Stretch side panels
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper with neck protector

Riding on gravel often means a little bit lower speeds at a higher effort level, so breathability becomes even more important and you can dress a bit lighter. Our Unlimited Thermal Jersey features our Warmer brushed fleece fabric, which provides a high level of insulation while letting just the right amount of air through for ventilation without causing a chill. We keep this piece very functional with the three rear pockets and a silicone gripper at the waist, while the YKK® Vislon® zipper is the easiest sliding we've ever found, so it's quick to adjust as your temperature changes.

UNLIMITED FLANNEL SHIRT

4523524

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	315 g (M)	10°-21°C / 50°-70°F

WHAT IT IS /PRODUCT FEATURES

A comfortable flannel shirt that performs just as well on the bike as it does off. Now it's easier than ever to walk straight from your ride to meeting your friends without skipping a beat.

- Merino wool / polyester blend fabric for added performance
- Snap closures on front for easy on and quick opening for temperature management and ventilation
- Front pockets for storage

Perfect for those cool autumn rides or endurance rides, or even as an insulating layer, this mid-weight Italian milled merino/poly mix offers just the right level of warmth and wicking. Use it next to your skin for those cool days to take off the chill, or add a long-sleeve base layer to take it cooler. Add an Unlimited Puffy vest and you're riding well into fall, or wear it under a jacket and you'll cover the entire winter.

This is also a great choice for your long endurance or bikepacking rides, as it continues to keep you warm while benefiting from wool's natural ability to not stink.

The weight of this garment and the more open knit favor breathability, so it's one of our cooler long-sleeve jerseys, but the layering abilities make this a highly versatile piece.

It's made to use with a vest, and with the thought that you have pockets on your shorts and bags on your bike, so we keep the Merino top without rear pockets.

UNLIMITED TRAIL BIBTIGHT

4523526

SIZES	WEIGHT	<div>PROGETTO X2</div> <div>NANO FLEX</div>
XS-3XL	347 g (M)	

TEMPERATURE RANGE

4-16°C / 39-61°F

WHAT IT IS /PRODUCT FEATURES

The do-everything bibtight with added storage, for all your adventures. Nano Flex 3G fabric to keep you warm and comfortable and protect you from light rain and wet roads. Two large cargo-style pockets. Designed for gravel riding but ready for adventure or endurance rides, or if you just want extra pockets.

- Nano Flex 3G fabric is exceptionally warm and soft with great rain protection
- 2 cargo-style side pockets with flaps over top to keep stuff from falling out
- Reduced seaming for improved comfort and fit
- Mesh bib straps don't hold moisture and allow for maximum breathability
- Progetto X2 Air Seamless pad for long-distance comfort
- Reflective details on back of leg with ankle zip closure for easy on and off

THE DO-EVERYTHING BIBTIGHT

Even though the temperatures start to drop in the fall, that doesn't mean you should stop heading out on gravel adventures. The Unlimited Trail Bibtight offers exceptional rain and wind protection with tons of extra storage. To make sure you can be comfortable even on the longest gravel rides, we use our Nano Flex 3G fabric: warm, stretchy, luxuriously soft, and highly breathable, and on top of that it features our proprietary third-generation nanotechnology water-repellent finish. The Progetto X2 Air Seamless seat pad will also make sure you stay comfortable over long distances or rough roads. Two cargo-style pockets allow for plenty of extra storage, with security flaps to make sure you don't lose anything, especially on rocky roads. To keep you from overheating, the bib straps are a stretchy mesh that not only helps regulate temperature but also ensures a great fit. The tight is completed with zippered ankle closures for easy on and off and reflective details for added visibility.

MEN'S BASE LAYERS

CASTELLI CYCLING

COLD DAYS 2ND LAYER
4522531

SIZES

XS-3XL

WEIGHT

101 g (M)

TEMPERATURE RANGE

-8°-5°C / 18°-41°F

WHAT IT IS /PRODUCT FEATURES

Maximum insulation and moisture management for cold rides, to layer between a base layer and a jacket.

- Polartec® Alpha® 90 fabric high-loft active insulation made from recycled PET
- Maximum breathability
- Asymmetrical zip
- High collar

The Polartec® Alpha® fabric is an amazing insulator, and it's soft, stretchy, and lightweight. A couple of years ago we thought it would make an excellent fabric for a base layer, but it tended to feel wet and clammy against the skin. But when looking for more insulation for sub-freezing gravel rides, we tried using the Alpha® prototypes as a second layer on top of a Prosecco base layer — and stumbled into the best combination for cold riding. We worked on the details and created this second layer for cold rides. We've given it a half zip so it doesn't create bulk over the lower torso, and we've mounted the zip slightly off-center to avoid the bulk of multiple zippers at the neck. We've kept the fit close to body so you have the choice to tuck it into your tights or leave it out like we do. We also found that it works well over a Flanders, Bandito, Miracolo, or Seamless base layer.

MIRACOLO WOOL LONG SLEEVE

4521522

SIZES	WEIGHT	TEMPERATURE RANGE
XS-2XL	112 g (M)	4°-15°C / 39°-59°F

WHAT IT IS /PRODUCT FEATURES

In cool conditions the mesh construction gives the warmth of wool but won't wet out on high-intensity rides.

- Merino wool mesh mixed with nylon for strength and elastane for stretch
- Minimalist finishing at collar, wrist, and waist for minimal bulk
- Raglan sleeve to avoid seam on shoulder under bib strap
- Woven scorpion logo label at side collar

008
GRAY

“What is that?” lit up our social media channels when Tao Geoghegan Hart wore a prototype of this base layer up and over the Stelvio on his way to winning the 2020 Giro d’Italia. Those conditions highlight where this piece excels: it provides a surprising amount of warmth by pulling moisture away from the body, keeping you warm always, but the mesh construction means it’s not too hot. Great under a jersey for high intensity, or for layering under a jacket.

CORE MESH 3 SLEEVELESS

4517028

SIZES	WEIGHT	TEMPERATURE RANGE
SM/LX/2XL	88 g (M)	20°-40°C / 68°-104°F

WHAT IT IS /PRODUCT FEATURES

Our lightest and airiest base layer wicks moisture away from your skin, while the open mesh helps hold the jersey up and away from the skin. It's good for warm conditions, and some riders even like it on a hot day, as it allows airflow between the jersey and skin.

- Magic Mesh 90% polyester, 10% Elastane wicking fabric
- Minimalist lightweight construction
- Reduced seams for maximum comfort

001
WHITE

010
BLACK

001
WHITE

010
BLACK

WARMER CONDITIONS

This is our base layer for the warmest conditions. The mesh is open to create a space on the skin for sweat to evaporate. The 10% elastane content makes it very stretchy and helps in the moisture retention so that you're always getting evaporative cooling.

WEIGHT	TEMPERATURE RANGE
66 g / 119 g / 89 g (Pair)	8°-20°C / 46°-68F
	

WHAT IT IS /PRODUCT FEATURES

Nano Flex for the ultimate warmer: warm and comfortable in dry conditions, water repellent in damp conditions, and still warm in extreme conditions.

- Water-repellent thermal and breathable Nano Flex fabric
- Flat-lock stitching with single seam
- Double-sided silicone grippers to keep warmers in place

NANO FLEX
ALL-CONDITION
WARMERS

Choose Nano Flex for warmers that are great in dry conditions but also give some extra protection and warmth in wet conditions. We invented the category of water-protective thermal fabrics, and Castelli's proprietary Nano Flex is often imitated but never equaled. No compromises for any conditions.

PRO SEAMLESS KNEE WARMER

4520584

SIZES	WEIGHT
SM-LX	67 g / 74 g / 52 g (Pair)
TEMPERATURE RANGE	
10°-20°C / 50°-98°F	

WHAT IT IS /PRODUCT FEATURES

A wide temperature range combined with seamless comfort makes this our most versatile warmer.

- Mid-weight seamless arm warmer
- Surprisingly warm without causing overheating
- Unique polyester/nylon/Lycra® 78%/15%/7% blend
- Fully seamless construction
- Folds up extra small

A BETTER ARM WARMER

After years of collaborations with the best teams in the World Tour we set out to make a better seamless arm warmer. Others on the market are made with a nylon/Lycra® blend that tends to hold moisture, but we knew we could get better moisture management with a polyester yarn. Working with polyester makes it more difficult to get the right stretch, return and manufacturing consistency, though. It took a year longer than we thought, but we're all glad we stuck with it. These warmers are a pro rider favorite because they're crazy light and they're extremely warm for their weight, yet even in milder conditions you don't overheat. They're so stretchy you hardly feel them on, yet when you take them off they occupy a fraction of the space that normal warmers would take in your pocket.

FRONT/SLEEVES

WHAT IT IS /PRODUCT FEATURES

A jacket so light it feels like it could just fly away. Super-light-weight construction using Castelli FLY Fabric Technologies: FFT to keep you warm and protected from the elements.

- Super-lightweight construction with amazing warmth and protection
- Castelli FLY Fabric Technologies: FFT
- GORE-TEX INFINIUM™ WINDSTOPPER® inner lining
- CLIMA SL Insulation for extra warmth
- FLY SL Shell for wind and rain protection
- 100% recycled post-consumer outer shell and lining
- Top- and bottom-opening YKK® Vislon® zipper
- Packable hood for extra warmth
- 3 back pockets with zippered security pocket for valuables
- Elastic and silicone at waist to keep jacket in place
- Reflective tabs for added safety

Imagine a jacket so light and warm you forget it's even on. The Fly Thermal W Jacket is just that jacket. From the inside out we constructed this jacket to be impossibly light and warm using Castelli FLY Fabric Technologies: FFT. First, we started with GORE-TEX INFINIUM™ WINDSTOPPER® as the lining. Its unparalleled performance keeps the wind from hitting your chest to keep you warm, but it also breathes and pushes the moisture from the inside out. Next, we found the lightest, warmest insulation that is 100% recycled material. CLIMA SL insulation not only insulates but breathes as well. Finally, the FLY SL shell is again made from 100% recycled material that blocks the wind and is treated to shed water and protect you from light rain and road spray should you get caught out in a quick rain shower. We've also added a packable hood to the jacket for extra warmth. It easily unrolls when you need it with a quick velcro tab to open up, either when the temps drop or you stop during the ride. It fits snugly under the helmet to keep any unwanted air out. Like any good jacket, it's finished off with a YKK® Vislon® zipper, three back pockets that offer plenty of storage along with a fourth zippered pocket for valuables, an elastic with silicone gripper at the bottom to keep the jacket in place, and reflective tabs for added safety while out on the road. This is our next step in creating an environmentally friendly jacket that performs how you'd expect a Castelli jacket to perform.

SIZES	WEIGHT	
XS-XL	269 g (S)	
TEMPERATURE RANGE		
12-18°C / 54-64°F		
	WET ROADS 	 WINDPROOF 

WHAT IT IS /PRODUCT FEATURES

The Fly LS W Jersey is a lightweight thermal long-sleeve jerseys for those days when it's just a bit chilly and you're looking to go fast. The soft brushed-back Fly T-SL fabric offers the right amount of warmth while being stretchy and lightweight. We've tailored the Fly LS W Jersey for a close-to-body fit.

- Super-lightweight construction with just enough warmth
- Low/no collar for temperature regulation
- Castelli FLY Fabric Technologies: FFT
- Fly T-SL fabric
- YKK® Vislon® zipper
- 3 back pockets with zippered security pocket for valuables
- Elastic and silicone at waist to keep jersey in place
- Reflective tab on back pockets

Even on chilly days you want to have that feeling of speed you get when wearing an aero jersey. The Fly LS W Jersey gives you the lightweight freedom of movement and feeling of speed that a summer aero jersey provides, along with the warmth you need as the temperatures change from summer to fall to winter. We've taken cues from our aero jersey — low collar, close-to-body fit, comfort, and freedom of movement — but added warmth by using our Fly T-SL fabric and long sleeves. The three pockets on the back offer ample storage, with a fourth zippered pocket to secure your valuables. The elastic with silicone grip at the waist keeps the jersey from moving around. And with days getting shorter, reflective tabs will help to keep you visible.

WHAT IT IS /PRODUCT FEATURES

Made to be the perfect vest. GORE-TEX INFINIUM™ WINDSTOPPER® wind and water protection on the front, and a breathable nanotechnology water-repellent back. Stretch fit, and packable into half a pocket when not needed. This is a core piece of your cycling wardrobe.

- Best race or training vest with windproof front and breathable rain-repelling back
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front
- Nano Flex Light Woven on back for breathable stretch with good water protection
- Top- and bottom-opening YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 3 rear pockets
- Reflective panel at bottom of pockets and around armholes

The Perfetto RoS 2 Vest is our attempt at the perfect vest. It's warm and windproof yet breathable thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric on the front and the membrane-free Nano Flex stretch woven back fabric. It's splash resistant for wet roads or changing conditions. It's light and packable, easily fitting in a jersey pocket with room to spare. It has three rear pockets of its own and a two-way YKK® Vislon® zipper you can open from the bottom to access gear in your jersey pockets. It has 360° reflectivity thanks to the reflective trim on the armholes and reflective band below the pockets. It fits close to body with a high collar that feels oh-so-comfy for cooler conditions.

RAIN OR SHINE

WHAT IT IS /PRODUCT FEATURES

Top-rated winter jacket, bringing warmth, breathability, and a high level of rain protection along with a soft, comfortable fit. This jacket leads the way in demonstrating how a winter jacket should perform.

- Rain or Shine engineering makes this our best jacket ever for dry conditions while providing significant rain protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 150 fabric for wind protection with high breathability and effective rain protection
- Double-layer Alpha construction with Polartec® Alpha Direct insulating layer separate from wind/water barrier to let you regulate temperature and ventilation
- Reduced seaming with seam sealing on shoulders reduces chances for water to enter through stitching
- Water-resistant YKK® Vislon® zipper slides easily for better regulation of airflow
- Raw-edge waist with silicone gripper lies flat and seals out wind
- Double-layer cuff integrates with gloves to prevent cold wind or water from entering at wrist
- Stretch fabrics with advanced patterning make for an excellent close-to-body fit that still accommodates a wide range of body types
- Back ventilation
- 3 rear pockets with reflective laser-cut drain holes
- Zippered secure front pocket for valuables

WHAT IT IS /PRODUCT FEATURES

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you’ll hardly notice it. Race fit for performance on fast autumn and spring rides on any terrain.

- Polartec® NeoShell® 4-way-stretch fabric on front and upper sleeves is windproof, waterproof and highly breathable
- Nano Flex Light woven fabric on back is highly breathable while blocking wind and splashes from light rain or wet roads
- Close-to-body cut remains very comfortable thanks to 4-way stretch of all fabrics
- YKK® Vislon® zipper is easy sliding for quick ventilation control
- 3 rear pockets
- Reflective panel at lower back

085 LIGHT BLACK

030 DARK GRAY/BLACK

163 CHALK/DARK GRAY

509 PURPLE DEW/NIGHT SHADE

As summer turns to autumn we still have a few months of amazing riding, but when we have to start dressing warmer we miss the freedom of wearing just a jersey. That’s why we made this jacket. We used the lightest, stretchiest fabrics we have to make a jacket that cuts out most of the wind, remains highly breathable, provides remarkably high levels of water protection, and just basically disappears so you don’t really notice it. This is a performance piece, so we’ve kept it focused on the task at hand. There’s nothing superfluous on it, unless you consider the big reflective panel on the back to be unnecessary. We don’t. We’ve given it a close-to-body fit so there’s no fabric flapping in the wind, which also helps keep the jacket warmer. The pockets are generous and easily reachable, the zip slides easily, and the logoing is discreet.

WHAT IT IS /PRODUCT FEATURES

Our warm women's jacket with allover fleece-backed GORE-TEX INFINIUM™ WINDSTOPPER® fabric to keep out the wind. Also ideal for staying extra warm on lower-intensity rides in cool conditions.

- Full GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast thermal protection
- Reflective panels on back, front, and sleeves (except Military Green colorway)
- 3 rear pockets
- YKK® Vislon® zipper for easy sliding

This is the jacket we made for cold-weather riding. Not necessarily for extreme cold when you're in survival mode, but when you want to be able to ride hard without feeling weighed down or overheating. The allover GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast keeps the wind out, while the fleece liner provides a high level of insulation. It will keep light rain at bay as well, with best-in-class ventilation. Little details abound, like the scorpion zipper pull, so it's easy to open with gloved hands, and the double-layer wrist to interface with your gloves without cold air coming in.

CASTELLI CYCLING
EMERGENCY 2 W RAIN JACKET
4521550

SIZES	WEIGHT	TEMPERATURE RANGE	
XS-XL	143 g (S)	6°-18°C / 43°-64°F	
	WATERPROOF 		WINDPROOF 

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn't want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability.

We kept the styling toned down and added a bright colorway in Brilliant Pink so that you can easily use this as a commute jacket and still look great when you get to the office. If you're going to wear it over office attire you may want to go up one size.

MILITARY GREEN/DARK GRAY

870
SILVER GRAY/DARK GRAY

This is a modern interpretation of the wind shell jacket, the one you keep in your pocket for a long descent or put on for the first hour of the ride until the day warms up. That jacket used to be a simple affair — a nylon shell — but the lack of stretch meant that it had to be cut on the generous side to fit all body shapes, both on and off the bike.

We’ve completely reimaged what the shell jacket should be and how it’s constructed. We’ve added panels on the sides and the sleeves in a very high-stretch yet tightly knit fabric that allows us to give the jacket a modern, close-to-body fit for aero gains on any terrain, and it actually keeps more heat in than a jacket that’s flapping about. We’ve kept it very compact so that it can pack away into minimal space in a jersey pocket.

The stretch panels are treated for water repellency, which will help in a light mist, but this is not meant to be a true rain jacket.

WHAT IT IS /PRODUCT FEATURES

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perfetto RoS Vest.

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer.

Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

SFIDA 2 JERSEY FZ
4521530

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	335 g (S)	12°-18°C / 54°-64°F

WHAT IT IS /PRODUCT FEATURES

Great on its own on cool days, or under a vest for added protection, the Sfida is the perfect bridge between your summer-weight jerseys and a full jacket.

- Nido d’Ape 3D thermal fabric on main body and sleeves
- YKK® Vislon® zipper with scorpion pull
- Zen collar to protect neck from top of zipper
- 3 rear pockets with reflective band for extra visibility

This engineered 3D thermal fabric provides extra warmth and comfort and a unique cross-dyed color effect. This jersey offers lots of layering options: use it alone in mild conditions, layer it under a vest in cool conditions, or wear it under a jacket on your coldest rides.

The extra-high collar has our Zen construction to protect the neck, while the Vislon® zipper is the easiest-sliding zipper available.

SINERGIA 2 JERSEY FZ
4521531

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	218 g (S)	12°-18°C / 54°-64°F

WHAT IT IS /PRODUCT FEATURES

The perfect foundation thermal jersey for fall and spring riding. The warm fabric and the drop-pocket construction are the keys to this jersey's performance.

- Warmer fabric
- Castelli stripe logo across upper chest
- Lightweight YKK® Vislon® easy-sliding zipper
- 3 rear pockets with Castelli drop-pocket construction
- Reflective piping at back

Most of us use long-sleeve jerseys for a few days in the spring and fall, then extend their range with a vest in cooler weather, and then pull them back out for insulation duty under a jacket in extreme cold. So a thermal jersey shouldn't be too bulky or complicated, yet you don't want boring.

We built this with all the essential features, like great fabric and fit, perfect pockets, and our lightweight easy-sliding YKK® Vislon® zipper.

LIGHT RAIN

WHAT IT IS /PRODUCT FEATURES

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X² Air Seamless Donna seat pad for long-distance comfort.

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X² Air Seamless Donna seat pad for long hours in the saddle

We made this tight for serious winter riding. That means keeping you protected and comfortable in the widest possible range of conditions. Easy to say, but harder to actually do. The main part of the tight uses our Nano Flex 3G fabric, the third generation of our proprietary nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, for luxurious comfort with the best protection on the market. We add Nano Flex Xtra Dry panels to provide a bit more wind protection and warmth in the front and over the thighs. It's not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat so you hardly notice them. Our generously padded women's-specific Progetto X² Air Seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible. We've designed this as the go-to tight for a full winter's riding.

WET ROADS

WHAT IT IS /PRODUCT FEATURES

The performance comfort tight for cool conditions when you want to cover up but not be weighed down.

- Thermoflex fabric from waist to knee for extra stretch and warmth
- Nano Flex stretch-woven fabric with brushed fleece inside at lower leg for splash protection on wet roads
- Progetto X² Air Seamless Donna pad for long-distance comfort
- Drop Tail bib straps allow you to pull down the tight for nature breaks without removing straps
- Zipperless ankle to reduce bulk inside shoecovers
- Reflective tabs on back of legs

Semifreddo — it's an Italian desert that's chilled but not frozen. Exactly like the conditions we designed this tight for. This tight was made for cool days when you're not quite sure if you'll be warm enough with shorts and legwarmers or if you'll overheat with a full thermal tight. In those conditions the Semifreddo is the tight you need.

The thighs and hips are kept warm with our Thermoflex fabric. Soft, fleecy, and especially stretchy, it's more comfortable than shorts and warmers. The lower leg uses our thinner Nano Flex stretch woven fabric so you don't overheat. Water protection is limited to the lower legs, so wet roads aren't a problem, but this isn't your tight when rain is threatening. The bib straps are our Drop Tail design so that you can pull down the tights for nature breaks without removing the straps. In addition, you can cross the straps in the front or back, as you prefer.

The Progetto X² Air Seamless Donna pad finishes out the comfort focus on our best tight for moderate conditions.

VELOCISSIMA DT BIBTIGHT4522550

SIZES	WEIGHT	KISSAIR ²
XS-XL	249 g (S)	
TEMPERATURE RANGE		
5°-14°C / 41°-57°F		

Thermal tight for keeping comfortable and warm all winter long. For dry conditions ranging from cool to cold.

- Thermoflex fabric for warmth and comfort
- KISS Air² Donna seat pad for long-distance comfort
- Drop Tail bib strap design so you can take a nature break without removing straps
- Ankle zippers for easy on/off
- Reflective band at bottom of leg

The Velocissima DT Bibtight is the right tight for cool or moderately cold days. It has the KISS Air² Donna pad, which is ideal for medium-distance rides or if you don't need the padding of the Progetto X² pad. This tight is warm but best for dry days, since it doesn't have water repellency like the Nano Flex tights. More than likely, these are the conditions you're riding in, and the Velocissima is right for you. The fabric is our softest fleeced Thermoflex. It has great detailing like the Drop Tail bib straps so you can take a nature break without having to remove your jacket and the bib straps. It has a reflective band around the bottom of the leg and YKK® Camlock® ankle zippers to make it easy to get over the heel.

Front Only

WHAT IT IS /PRODUCT FEATURES

Our warmest tight, providing full-length front wind protection. This is the right choice if you venture out in very cold conditions or just like dressing extra warm.

- Full GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast front for total wind protection
- Nano Flex G3 on seat and lower back leg for splash protection from wet roads
- Thermoflex back of thigh for extra warmth and stretch
- Mesh bibs don't hold moisture
- KISS Air² Donna seat pad gives great cushioning without excessive bulk
- High-visibility reflective stripes above knee in front and above calf on back
- Ankle zips for easy on/off

This is our warmest tight for cold riding conditions. Our warmest GORE-TEX INFINIUM™ WINDSTOPPER® fabric covers the entire front of the tight to keep the cold wind out. We use water-repellent Nano Flex 3G on the bum and the back of the lower legs for splash protection from wet roads, while Thermoflex on the back of the thighs gives extra stretch for the renowned Castelli fit. This is now the most comfortable wind tight we've ever made. We've kept the bib straps to a minimum so that you can layer your upper body exactly as you wish, without an unwanted thermal layer covering your stomach. With more of us riding at night, we've placed large reflective inserts on both the front and back of the legs, where the up-and-down pedaling motion grabs the attention of approaching motorists.

WATERPROOF

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

Fully waterproof jacket for when you need full protection, whether from rain or just from cold. Styled so you can wear it off the bike too.

- GORE-TEX® PACLITE® PLUS technology is guaranteed to keep you dry
- Fully seam sealed and with waterproof zippers
- Hood designed to fit under helmet when riding in wet conditions
- 2 front pockets
- Side zippers so you can widen hemline for better ventilation
- Reflective logo on back

Riding off-road and the improvements in breathability in hard shell fabrics have made us reconsider hard shell jackets. The Trail Endurance GT Jacket is a women's-specific jacket that's made to cover rainy rides on any surface, or cold rides when you really want to keep the elements out and you're not as concerned about going fast.

We've used GORE-TEX® PACLITE® Plus for the extra breathability, but that allows the jacket to compress down to low volume in your bags. It has two front pockets that can open for ventilation, and a zipper at each side that can be opened to give extra width to the hemline and allow ventilation out the bottom.

The hood is cut to fit under your helmet for riding in the rain — you don't really care if your helmet gets wet. The wrists have an anatomic cut to better fit around your hand and keep any rain from running down into your gloves.

While this jacket is first and foremost a technical on-bike piece, it's also designed to look good when you're off the bike, for your next adventure or bikepacking ride.

030
DARK GRAY

Whether you are riding road, gravel, or MTB, you need the same amount of protection from a jacket. But when you're heading out for a gravel or MTB ride, either solo or with friends, the aerodynamic advantage just isn't needed sometimes. The Vento Trail Jacket is that perfect protection piece without a focus on aerodynamics or going fast. The GORE-TEX INFINIUM™ WINDSTOPPER® fabric offers unparalleled protection. This jacket blocks the wind and keeps the rain and wet at bay. Since there isn't a focus on going fast with this jacket, we've given it a more neutral fit and a more casual styling. There is a front pocket to store valuables or easy-access items like your keys or credit card. The three pockets on the back are hidden but still easily accessible and offer plenty of storage. Since they are hidden, you can walk into a café without feeling like you are wearing a traditional cycling jacket. In fact, if your friends ask where you got that jacket, they might be surprised it's a cycling jacket!

WHAT IT IS /PRODUCT FEATURES

The jacket that’s very warm yet extremely packable for your adventure or multiday rides. Woven microfiber windproof outer layer with Polartec® Alpha® Direct insulation.

- Coated windproof microfiber woven outer shell with DWR treatment
- Polartec® Alpha® Direct insulation layer for maximum loft with minimum bulk
- Nano Flex stretch woven fabric on underside of sleeves, sides, and lower back adds stretch and breathability
- Zippered pockets on chest and back
- 2 large rear pockets covered with a flap to look right when off the bike
- YKK® Vislon® zipper with U-shaped zipper pull
- Woven inner label and vintage scorpion logo on sleeve

When the challenge is distance rather than speed, this jacket brings warmth and comfort with styling that looks right both on the bike and at the food stop.

We’re doing more and more long adventure rides. Sometimes that means rides with major elevation changes. Or riding through the cold of night and the heat of the day. Or multiday bikepacking rides. This jacket shines in those situations because it provides a lot of insulation and warmth when you need it, but it packs down small in your seat bag when you don’t need it.

The outer layer is a fabric you’ve seen on some high-end down jackets from some big brands. We like it because it’s so light yet it keeps the wind out. Then on the inside, Polartec® Alpha® Direct is the lightest, most packable, and highest-wicking insulation available. It’s warm like a synthetic down but doesn’t require an inner layer that would reduce breathability and add weight.

For your next Unlimited adventure, just stick this jacket and a GORE-TEX Idro Jacket in your bag and you’re ready for anything.

WHAT IT IS /PRODUCT FEATURES

Warm yet extremely packable vest for your adventure or multi-day rides. Woven microfiber windproof outer layer with Polartec® Alpha® Direct insulation.

- Coated windproof microfiber woven outer shell with DWR treatment
- Polartec® Alpha® Direct insulation layer for maximum loft with minimum bulk
- Nano Flex stretch woven fabric on sides and pockets adds stretch and breathability
- Zippered pocket on chest
- 2 large rear pockets
- YKK® Vislon® zipper with U-shaped zipper pull
- Woven inner label and vintage scorpion logo

Good for everything from road riding to bikepacking, this vest packs a surprising amount of warmth into a surprisingly small amount of space. The microfiber shell keeps the wind out, while the Polartec® Alpha® Direct insulating layer provides exceptional warmth with minimal weight. The stretch side panels improve fit and ventilation and are treated to be water repellent, as is the rest of the vest. There’s a zippered chest pocket for valuables and two large, easily accessible back pockets for storage. The wide range of conditions that this vest covers means you’ll use it on the road in the spring and autumn, wear it on your gravel rides in the mountains during the summer, and stash it in your handlebar bag on your next bikepacking adventure.

UNLIMITED TRAIL W JERSEY

4522539

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	222 g (S)	12°-17°C / 54°-63°F

- WHAT IT IS /PRODUCT FEATURES
- The warmest all-road jersey with extreme performance, disguised as an adventure jersey.
- High-loft brushed polyester fleece fabric keeps you warm and dry, while the 5% elastane content helps it stretch for perfect fit
 - Tight knit keeps some wind away from your skin for extra warmth
 - 3 cargo-style rear pockets and a zippered front pocket
 - YKK® Vislon® zipper for easy opening/closing
 - Neutral fit

Gravel and off-road riding often mean somewhat slower speeds and more variability, so we can ride in cooler conditions before putting on a full jacket. This jersey was made to provide a high level of warmth, especially at lower wind speeds, to give that perfect balance of warmth without overheating. Style-wise it's influenced more by outdoor than pro racing, but Castelli's DNA is still there for the on-bike performance, sacrificing only aerodynamics. All-road features include the higher-volume pockets as well as the zippered front pocket so you don't lose valuables. This jersey is excellent as a layering piece under a Perfetto Vest or an Aria Vest.

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	261 g (S)	13°-18°C / 55°-64°F

- WHAT IT IS /PRODUCT FEATURES
- For cool-weather gravel rides, the Unlimited W Thermal Jersey keeps your core warm while providing enough ventilation to keep you from overheating. Stretch side panels keep it fitting perfectly. Pair it with an Unlimited W Puffy Vest to extend the comfort range of this jersey.
- Maximum warmth from our Warmer fabric with brushed-fleece inner layer
 - Gripper elastic at waist
 - 3 rear pockets
 - Easy-sliding YKK® Vislon® zipper with neck protector

Riding on gravel often means a little bit lower speeds at a higher effort level, so breathability becomes even more important and you can dress a bit lighter. Our Unlimited W Thermal Jersey features our Warmer brushed fleece fabric, which provides a high level of insulation while letting just the right amount of air through for ventilation without causing a chill. We keep this piece very functional with the three rear pockets and a silicone gripper at the waist, while the YKK® Vislon® zipper is the easiest sliding we've ever found, so it's quick to adjust as your temperature changes.

UNLIMITED FLANNEL W SHIRT

4523563

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	263 g (S)	10°-21°C / 50°-70°F

WHAT IT IS /PRODUCT FEATURES

A comfortable flannel shirt that performs just as well on the bike as it does off. Now it's easier than ever to walk straight from your ride to meeting your friends without skipping a beat.

- Merino wool / polyester blend fabric for added performance
- Snap closures on front for easy on and quick opening for temperature management and ventilation
- Front pockets for storage

Sometimes you just don't need or want a traditional cycling top when heading out for a bike ride. You might be on a bikepacking adventure, commuting, or just going on a casual ride through town. In those situations, the Unlimited Flannel Shirt is the go-to button-down shirt. The merino blend fabric provides warmth and has a soft brushed inner finish that feels great against the skin. The fabric also performs the way you need it to on the bike: warm enough to keep you comfortable, breathable, and fast drying so you don't show up at your destination soaked. The snap closure on the front makes it quick to open up one-handed while riding if you need additional ventilation and easy to snap back up if the temperature starts to dip. Two front snap-closure pockets not only add a great look to this flannel shirt but also provide secure storage. The Unlimited Flannel W Shirt has a casual cut for added comfort, with a longer tail to make sure you stay fully covered while riding. Now it's easier than ever to walk straight from your ride to meeting your friends without skipping a beat.

UNLIMITED TRAIL W LEGGINGS

4523554

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	140 g (S)	12-18°C / 54-64°F

WHAT IT IS /PRODUCT FEATURES

Perfect to wear over a pair of shorts to keep the chill off your legs or to put on after a great gravel ride. These comfortable, soft, and stretchy leggings have pockets for storage and ventilation inserts for a great, stylish look.

- Wide waistband for comfort and coverage
- 2 pockets for storage
- Reflective piping

Leggings have become a wardrobe staple. They are perfect to wear over bibs to keep the chill off your legs or to put on after a ride. The soft and stretchy fabric means the Unlimited Trail W Leggings fit lots of body types. The wide waistband is comfortable and provides great coverage. Pockets on the sides can fit a phone, keys, cash, and credit card. The inserts on the back of the legs provide ventilation and style.

UNLIMITED DT W LINER BIBSHORT

4522056

SIZES	WEIGHT	PROGETTO X ²
XS-XL	145 g (S)	

TEMPERATURE RANGE
15-35°C / 59-95°F

WHAT IT IS /PRODUCT FEATURES

Made to be the ultimate liner under your baggy shorts. Featuring the supremely comfortable Progetto X² Air Donna seamless seat pad in the coolest minimalist short, with drop-tail construction for pee breaks without removing the bib straps.

- Women's-specific Progetto X² Air Donna seamless seat pad for long rides and rough trails
- 170 g Force fabric through hips to keep seat pad in place
- Perforated leg panels are light for maximum ventilation and cooling
- Giro Air leg grippers are cool and hold legs in place
- Drop-tail bib straps can cross in front or back and allow pee breaks without removing bibs

There's no reason to accept a mediocre short just because you want to wear baggies. This liner is made for ultimate comfort under your baggies. First and foremost, this short features the top-of-the-line Progetto X² Air Donna seamless seat pad. The pad has two separate components: a soft, stretchy Skin Care Layer that coddles your skin, and a separate Cushioning Layer with dual-density foam and gel pads for progressive damping. The best pad is worthless if moves around, so we've constructed the hip area in our compressive Force fabric, which holds the pad in place while providing good ventilation. The legs are light and airy with perforated fabric to keep you cool, and are held in place by our gauze-like Giro Air elastic. The beauty of this leg construction is that you can adjust the length to your preference — so they're long enough to keep your baggy short from rubbing against your leg, for example. The bib straps are Castelli's drop-tail design, stretchy enough to be pulled down for a pee break while providing enough pull to keep your shorts in place. They're free floating so you can choose to cross them in front or back.

ROSSO CORSA

ROSSO CORSA BRA
4518550

SIZES	WEIGHT
XS-XL	38 g (S)

WHAT IT IS /PRODUCT FEATURES

It's a cycling bra, not a sports bra. Not overly restrictive like a jogging bra, it's cool and offers just enough support for cycling.

- Superlight stretch fabric perfect for cycling
- Mesh inserts for extreme breathability keep you cool and dry
- Back hook-and-eye closure with 3-position regulation for easy on and off
- Molded cups with full coverage
- Medium support thanks to contoured seams and underbust elastic for enhanced fit and support

IT'S JUST FOR CYCLING

We wanted to make a bra for the unique demands of cycling. Compared to other sports there's less impact but requires a higher level of moisture management. We've engineered in just the right amount of support - you'd certainly never go running in this bra but it's just right for cycling.

COMMUTING AND OFF-BIKE

CASTELLI CYCLING

COMMUTER REFLEX JACKET
4521537

SIZES	WEIGHT	TEMPERATURE RANGE	
S-3XL	319 g (M)	-2°-15°C / 28°-59°F	
	<div>WATERPROOF</div> <div><div></div><div></div><div></div><div></div><div></div></div>		<div>WINDPROOF</div> <div><div></div><div></div><div></div><div></div><div></div></div>

WHAT IT IS /PRODUCT FEATURES

Designed for the rigors of commuting in all weather, this jacket keeps everything out while fitting over your office attire, but where it really shines, quite literally, is with the allover reflectivity that lights up at night yet is practically unnoticeable during the day.

- Castelli-exclusive 3-layer allover reflex fabric with 20,000 mm water column waterproofing and 20,000 MVTR breathability
- Taped seams for fully waterproof construction
- Cut to fit over normal clothes, longer in front and back for extra coverage
- No-sew bottom hem for very clean look
- No-sew external zipper flap
- Inner gaiter can be closed to seal out drafts or left open for ventilation
- Velcro wrist closure to effectively seal against glove

This is the Castelli of commute jackets, made to deliver maximum function on the bike and then look great when you get to work.

We wanted a jacket that provides maximum visibility during those night commutes but doesn't look ridiculous with all kinds of silver reflective bands and strips when you get to the office. We applied a nearly unnoticeable reflective print on the entire surface of the jacket. You don't really see it when you're riding in the daytime or wearing the jacket off the bike, but at night the jacket reflects a distinctive pattern to get you noticed.

We didn't stop at the reflectivity. The 20,000 mm water column means no water is coming through, ever. And the 20,000 MVTR breathability means that a good amount of moisture will escape. But it's the ventilation details that make this jacket stand out: there's a gaiter at the waist that you can close to seal out the wind or leave open to let some air come in from the bottom to keep you cooler. This inner gaiter allows us to make a jacket that hangs straight at the bottom — a much cleaner and more refined look than a jacket with wrinkles from an internal elastic.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS air²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

A SMALL GESTURE CAN MAKE A BIG DIFFERENCE

At Castelli we know how important it is to make a contribution to our planet in terms of sustainability and environmental impact. This catalog is the result of small steps taken with a view toward making more responsible choices, and we have decided to work with partners who can respect this vision of ours. We have chosen more natural papers, originating from forests that are managed more carefully, and inks and printing methods that ensure the lowest possible ecological impact and easy recyclability once this catalog has served its purpose. It's a small contribution to a healthier planet.
